

### Diocesan Staff Visitations 2008-2009

As has been Bishop Gibbs' policy since 2001, the congregations that do not receive an Episcopal Visit in a given program year are to be visited by a member of the Bishop's Staff. **As stated in the Special Notes section of the Bishop's Visitation Customary, these visits are expected to include time with the Bishop's Committee/Vestry and with the clergy and clergy families. These visits are to normally be on a Sunday, and should incorporate the congregation's Sabbath routine. You should be in contact with staff assigned to visit your congregation at which time you will need to work through the date and details of the visitation. The particular staff member will discuss with you how they may be included in your service. The staff is expected to be included in the service, introduced at announcements as a member of the Bishop's staff, and given an opportunity to bring greetings on the Bishop's behalf. It is the expectation of the Bishop that these visits take place during the program year Sept-June 2008-9. The Bishop's staff looks forward to sharing this time with you and encourages you to make the most of your time together.**
