

Vital Congregations

March 28, 2020

The Vestry Days at the Cathedral (February 22) and St. Paul's Lansing (March 7) led by Bishop Perry were attended by about 300 people from 38 congregations (a fantastic turnout). The theme was "Building Blocks for Congregational Development" and focused particularly on listening to the needs in the surrounding community and responding. The Community Organizing workshop on June 26-27 (that all members of Diocesan Council are invited to) will build further on this.

We're looking at a date in late September for the next Advanced Renaissance workshop (probably with a new name) and we'll need to start planning for that in May.
