Dear Growth and Income Fund Investor:

Stock and bond markets around the globe were down during the second quarter of 2022, and the Growth and Income Fund was no exception to this global downturn. Our portfolio was down 11.5% during the quarter. Our benchmark return was down 12.2%, so despite the steep decline we actually did a little better than our target, for a small silver lining. Year-to-date our portfolio is down 17.0%, right at the benchmark.

Since inception with our current investment advisor (June 2014), the net investment performance has averaged 5.6% per year while beating the benchmark of 5.39%.

The share value of the Fund as of the end of the second quarter was \$32.1824, a 12% decrease from the first quarter share value of \$36.7274. Over the last twelve months the dollar-weighted gross investment return has been about -13.5%, investment management fees were 0.10%, accounting/audit fees were 0.04% combined, and dividends averaged 3.3%, resulting in a net, after-dividends and after-expenses return of -16.9%.

The Q3 2022 dividend of \$0.3128 per share will be distributed in late September. The Trustees have approved the quarterly dividend for 2023 at \$0.3299 per share, which is 5.5% higher than the dividend approved for 2022. To determine your dollar dividend, multiply your number of shares (look on your Investor Balance and Activity Report) by \$0.3299 and by 4 (to annualize).
